

# Welcome to Clinton County Highlights

## 2005 Edition

This publication is provided annually for each of Indiana's 92 counties, 11 Economic Growth Regions, and the State of Indiana.

Each publication includes a variety of demographic information: population, education, commuting patterns, labor force estimates, firms and employment by industry, industry wages, and firms and employment by size.

If you need further information about your area, you may call the regional analyst listed below. If you need labor market information for other areas, you will find a map of the regional analysts at the back of this publication and posted on our Internet website under *Resources*.

Additional labor market information is available on our Internet website.

Our website address is <http://www.in.gov/dwd/inews>

# **SUMMARY OF CLINTON COUNTY HIGHLIGHTS**

The county population estimate for 2004 was 34,148, up 0.8 percent from the 2000 Census total. During this same time period, Indiana's total 2004 estimated population of 6,237,569 was up by 2.6 percent.

According to the 2000 Census, 17,412 people twenty-five years of age or over were high school graduates and/or had post-high school education. This number represented 80.1 percent of the twenty-five and up county population. Of that population, 2,205 or 10.1 percent were four year college graduates or greater. In 2003, of the 374 persons graduating high school that year, 270 or 72.2 percent intended to go on to higher education.

A total of 2,236 workers or 12.4 percent of the workforce commuted into Clinton County in 2003. Tippecanoe County sent the most workers into the county. Conversely, 5,656 or 26.4 percent of the labor force commuted to work outside of the county. Tippecanoe County received the most workers from Clinton County.

The estimated average unemployment rate for 2004 was 5.6 percent, above Indiana's annual average of 5.2 percent. The county's unemployment rate was based on an estimated average residential labor force of 16,750. Of that labor force, 15,810 were employed and 940 were unemployed.

For the year 2004, there were 11,141 jobs at industries within the county. The largest employing industry in the county was Manufacturing with 38.9 percent of the total industry employment. The Education & Health Services industry was second at 18.8 percent.

The industry showing the most growth in jobs over the three year period (since 2001) was Trade, Transportation & Utilities, increasing 76 jobs or 5.6 percent above 2001. 12.7 percent of employers in the county employed 20 or more workers and those represented 76.4 percent of all employment.

The all industry average 2004 earnings for the county was \$30,320 per year versus Indiana's \$34,693. The county average wage was an increase of 10.5 percent over the 2001 county industry average wage. 2 of Clinton County's North American Industry Classification System sectors had annual average earnings greater than the Indiana average for those industries. The county's Management of Companies & Enterprises industry had the highest average earnings at \$142,727 per year, with Manufacturing second at \$40,442, while the industry with the lowest annual earnings number was Accommodation & Food Services at \$9,538. The same industries statewide paid an average \$66,811, \$47,638, and \$11,574 per year, respectively.

## NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM TECHNICAL NOTES

For over sixty years, industry information has been compiled using the Standard Industrial Classification (SIC) system. Since 1993, the industry data tables in this publication were classified by SIC.

Beginning with the 2002 issue of the Highlights report, new industry data tables are based upon the North American Industry Classification System (NAICS).

Developed jointly by the United States, Canada and Mexico to produce comparable data, NAICS was introduced in 1997 to replace the SIC system. Because of its' scope and complexity, the transition to NAICS has taken three years to complete and is now effective beginning with 2001.

NAICS provides a more specific classification system reflecting the economy's changing industrial composition. NAICS focuses on *how* products and services are created, as opposed to the SIC focus on *what* is produced.

This reorganization has created breaks in the industrial classification time series. Even though, for example, the Manufacturing industry group is still listed, the current statistical data for Manufacturing may not be comparable to what was previously shown.

*Example: An industrial machine company has its employment offices in a separate building. Those workers may now be listed in the Professional and Business Services industry under NAICS, rather than in Manufacturing. The same is possible for other industries.*

NAICS uses a six digit hierarchical coding system to classify all economic activity. NAICS-United States allows for the identification of 1,170 industries compared to the 1,004 found in the SIC system. NAICS classifications are reviewed every three years. For purposes of this publication we will be classifying economic activities into 11 NAICS 'super sectors' and 15 NAICS sectors.

\* \* \* \* \*

The following is a listing of the NAICS 'super sectors' we will be using:

**Natural Resources & Mining** includes agriculture, forestry, fishing, hunting, and mining.

**Construction**

**Manufacturing**

**Trade, Transportation & Utilities** includes wholesale and retail trade, utilities, transportation, and warehousing.

**Information** includes publishing, motion pictures, sound recording, broadcasting, Internet publishing, telecommunications, ISPs, search portals, data processing, news syndicates, libraries, and archives.

**Financial Activities** includes finance, insurance, real estate, and rental and leasing.

**Professional & Business Services** includes professional, scientific, and technical services, management of companies and enterprises, administrative/support, and waste management and remediation services.

**Education & Health Services** includes educational and health services, health care, and social assistance.

**Leisure & Hospitality** includes arts, entertainment, recreation, accommodation, and food services.

**Other Services** includes repair, maintenance, personal, laundry services and religious, grant making, civic, social, and professional organizations and private households.

**Federal, State & Local Government** includes total government employment.

Note: For more information on the North American Industry Classification System, you may refer to the U.S. Census Bureau page on NAICS at <http://www.census.gov/epcd/www/naics.html>
